OBJECTIVE

I am a result-driven Software Engineer with a strong background in creating responsive, user-centric web applications. Skilled in HTML, CSS and JavaScript, and modern frameworks such as Bootstrap, Tailwind and React. Seeking to apply my expertise in front-end development to deliver engaging and intuitive user experiences and to further more learn, relearn and unlearn everything there is about secure software engineering.

EXPERIENCE

DE-GREAT MINDS DISTINCT ACADEMY

November 2023 - July 2024

Administrative Head

1. Oversee the performance of both the teachers and the pupils.
2. Improved the work ethics of the teachers by developing their level of interpersonal relationship amongst themselves.
3. Developed a flexible system for teachers to easily communicate with the school administrative head and proprietress with the administrative head on issues that needs to be taken of in terms of the intellectual inadequacies of some pupils.
4. Spear headed the adoption of digital methods in teacher - parent communication and records keeping.

Jetters High School

February 2022 - January 2023

Class Teacher

1. Served as a Physics / ICT teacher for the senior secondary.
2. Adopted the school into the Mind-the-Gap Initiative (A digital literacy Initiative Program responsible for creating awareness and sensitizing the younger generations about the evolution of technology and the benefits of embracing the fast growing Digital Economy).

Al-Gaddafi Computer Institute

March 2022 - March 2023

Instructor

1. Instructed the students on the use of Microsoft Office Packages (Word, Excel, and Power Point).
2. Organized tutorial sessions on the basics of Web Development using HTML and CSS to build basic static pages.
3. Supervised Data Entry and Computational activities on Data Analytics related projects.

EDUCATION

University of Uyo, Uyo

2021

Bsc. Physics
2nd Class Lower Honors

PROJECTS

Unit Conversion Web Page

Designed and built a user friendly interface web page where users can input values and select units to convert using HTML, CSS and a bit of JavaScript. Also used media queries for the responsiveness and display on different screen sizes.

SKILLS

Computer Maintenance and Troubleshooting

Microsoft Office Packages

Product Design

Communication

HTML

CSS

JavaScript

Bootstrap Frameworks

Tailwind Css

Version Control (Git)

ACHIEVEMENTS & AWARDS

JOBBERMAN Accelerated Soft Skills Training Certification (January 2023)

GOOGLE Fundamentals of Digital Marketing Certification (January 2023)

IBM Introduction to Cloud Computing Certification (January 2023)

IBM Introduction to Web Developement with HTML, CSS and JavaScript Certification (July 2023).

LANGUAGES

English

Igbo Language

Efik / Ibibio Language

PERSONAL DETAILS

Date of Birth : 21/07/1997

Nationality : Nigerian

Religion : Christian

Vanessa Durward

Contributed to the design and building of an easy to navigate and user-friendly, responsive port-folio multi-page website for an Australian book writer using a Content Management System (CMS) platform (wix.com).

https://www.vanessadurward.com

Portfolio (Using HTML and CSS)

Designed and built a single paged parallel website as my portfolio using HTML for the skeletal outlook and CSS for the styling. Also used CSS media queries for the responsiveness and adaptation to different screen sizes.

https://nightshade.onrender.com

Portfolio (using Bootstrap Frameworks)

Optimize my previous portfolio where i used basic HTML and CSS and did some graphical transformation with the efficient use of Bootstrap and some JavaScript.
